

Established in 1995, we serve a broad client base of Architects, Design Build Contractors, and Theatre Owners. Comprised of designers, technicians, and lighting consultants who have worked “on” and “off” Broadway, our team is ready to assist you with the design of:

- High School Theatres
- College & University Theatres
- Commercial Projects
- Outdoor Performance Venues
- Architectural Lighting Design

HIGH SCHOOL THEATRES

COLLEGE AND UNIVERSITY THEATRES

COMMERCIAL PROJECTS

We have learned that it is only through listening to the needs of all involved that dreams can be realized. Our belief is that a commitment to personal and professional relationships between the owners and all members of the design team nurtures creative design solutions, encourages budgetary responsibility and produces a successful, sustainable end product. With more than 100 completed projects we continue to be privileged and honored to work with world class clients, architects and design teams. We look forward to speaking with you about your next project.

OUTDOOR PERFORMANCE VENUES

ARCHITECTURAL LIGHTING DESIGN
